1. Introduction

Welcome to the **DnD Bank**, a web application designed for Dungeon Masters (DMs) and players to manage in-game currency within a campaign. With this application, DMs can manage unlimited funds and distribute them to players, while players can track their own wallets and transactions.

KEY FEATURES:

- Multiple wallets per player
- Secure transactions between wallets
- DM-controlled unlimited funds
- Automatic wallet creation for new users and campaigns
- Transaction history tracking

2. Campaign Management

2.1. Creating a Campaign

As a Dungeon Master (DM), you can create a campaign:

1. Log in with your account.
2. Navigate to the Campaigns page.
3. Click on the Create Campaign button.
4. Enter a campaign name and click Submit.

A unique join code will be generated for your campaign. Share this code with players so they can join.

2.2. Joining a Campaign

To join an existing campaign:

1. Go to the Campaigns page.
2. Click Join Campaign and enter the provided join code.
3. Once accepted, a wallet will be automatically created for you.

3. Wallet Management

3.1. Sending Coins

Players and DMs can send coins between wallets:

1. Go to the Campaign Detail page.
2. Click the Send Coins button next to the desired wallet.
3. Select a recipient wallet, input the amount of coins (Copper, Silver, Gold, Platinum), and confirm the transaction.

3.2. Transaction History

Each wallet has a detailed transaction history:

1. In the Campaign page, click on View Transaction
2. It will show a list of transactions, including the amounts sent, received, and the campaign associated with the transaction.

DMs can see all transactions in the campaign, while players can view only their own transactions.

4. Account Management

Updating User Information

To update your username, password, or email address:

1. Navigate to the Account Settings page.
2. Update the desired fields and click Save Changes.
